Upgraded mix with wooden structure

Stand Upgrades

Our talented in-house designers are always looking for a new challenge or design opportunity. Why not put them to good use and create a unique standard Shell Booth design specifically tailored to your exhibition?

Or perhaps group your Exhibitors together and utilise a Pavilion design to create specific zones within your show.

Pavilion Booth

A pavilion is a large exhibit space with a number of exhibitors under the same banner. It might be a country, a region or association.

The key to a successful pavilion is to offer a great pre-marketing plan, quality exhibit spaces, and an additional menu of offerings and services for the individual exhibitor.

A great and quality exhibit spaces
